EXTERNAL REVIEWERS 2012–2013

The mainstay of any peer-reviewed journal are its reviewers, and JLM is no exception here. Each paper is reviewed by at least 3 carefully selected reviewers, including at least one representing the JLM Editorial Board. To increase reviewing anonymity, we do not give the names of the 25 JLM EB reviewers, but we would like to heartily thank them for their hard and timely work. We also express our sincere gratitude to the following 38 external reviewers for papers reviewed by the end of 2013:
